RELEVANT WORK EXPERIENCE

IT Intern at Lifewood Data Technology January 2026 - May 2026 (540 Hours)

- Designed User Flows for Internal Tools
- Developed Websites and AI Agents to Support Internal Company Operations
- Crawled and Compiled Datasets for AI Development
- Tested out internal company systems and projects & provided feedback for improvement

EDUCATION

St. Alphonsus Catholic School (Elementary - Junior Highschool)

University of Cebu Lapu-Lapu Mandaue

- Senior Highschool - ABM Strand
- College - BSIT (2022 - 2026)

PROJECTS

EduMatch - Capstone Project

Role: Technical Writer, Frontend Developer, and Data Quality Checker

Tools/Tech: TypeScript, C#, Python, React, PostgreSQL, Docker, External APIs, and Random Forest

- A recommendation system that uses machine learning to propose universities to users depending on their preferences
- Made the AI model and datasets from scratch.
- In-charge of the System Documentation and Dataset Quality Checking
- Assisted in Frontend Development

LifePlan - AI Production Planning Agent

Role: Full-Stack Developer

Tools/Tech: React, TypeScript, Vite, MySQL Workbench, Springboot

- Built an AI-powered production planning tool that makes scheduling easier and automates manual planning tasks.
- The system is designed with role-based access, where each user has a different perspective, access, and tasks based on their role.
- Assisted in designing frontend, making it clear, responsive, and user-friendly.

Company Website - Internship Project

Role: Full-Stack Developer

Tools/Tech: React, TypeScript, Vite, Supabase, Vercel

- Rebuilt the company website and added features for both admins and users.
- Handled the full frontend-backend integration.

TECHNICAL SKILLS	CORE COMPETENCIES	AI TOOLS / LITERACY
• HTML & CSS • JavaScript • React • Supabase • Vercel • Spring boot • Unity • Unreal Engine • Diversion • Git	• UI/UX Design • User Flow Mapping • Wireframing (Figma) • Mind Mapping (MindManager) • System Diagramming (Lucidchart, Draw.io) • Research • Team Collaboration • SDLC	• Google AI Studio • NotebookLM • HeyGen • Prompt Engineering • AI Code Assistants • Gamma • AIGC • LLMs • HIL • AntiGravity
